

Area <ft2>	Effective Air Conditioner		Recommended Stabilizer Model
	(HP)	<BTU/hr>	
80 ~ 100	1	8,000 ~ 9,000	ACG 3000VA
110 ~ 150	1.5	12,000 ~ 14,000	
160 ~ 200	2	16,000 ~ 18,000	ACG 6000VA
260 ~ 300	3	25,000 ~ 28,000	

Features:

Unique Coolplus Technology, stabilize and maximize your AC's efficiency
 Microprocessor controlled, Zero Cross Switch technology
 Easy wall mounted installation, best suitable for AC companion
 Modern & Slim Design with fully metal casing
 Large & luxury color screen, power status at one glance. *ACG 3000VA(2.5 inch screen), ACG 6000VA (3 inch screen)
 Auto cooling fan provide perfect ventilation performance
 Selectable Delay Time (3 mins recommended for Air Conditioners)
 Built-in temperature sensor protect transformer from overheat damage
 Over voltage & Low voltage protection, Overload protection
 Resettable circuit breaker
 Stability selection buttons

Specifications:

ACG 3000VA

Input	140V~260V	50Hz/60Hz	
Output	230V+/-10%	50Hz/60Hz	c/w 110V assist output
Power	3000VA		
Delay Time	6 Secs / 3 Mins		
Stability Selection	10% / 8%		
Over Voltage Protection	260V		
Low Voltage Protection	180V		
Over Heat Protection	120°C		

ACG 6000VA

Input	140V~260V	50Hz/60Hz
Output	230V+/-10%	50Hz/60Hz
Power	6000VA	
Delay Time	6 Secs / 3 Mins	
Stability Selection	10% / 8%	
Over Voltage Protection	260V	
Low Voltage Protection	180V	
Over Heat Protection	120°C
